## EXPERIENCE

---

### Microsoft

*Software Engineering Intern (Cognition team)*

- Ego-centric gesture recognition applied on ASL

**Belgrade, Serbia**

*July 2019 – October 2019*

### Microsoft

*Software Engineering Intern (Cognition team)*

- Using deep learning to assist manual ground-truth labeling for eye tracking

**Belgrade, Serbia**

*July 2018 – September 2018*

## EDUCATION

---

### Faculty of Mathematics

*Bachelor in Computer Science (GPA 9.96/10.0)*

**University of Belgrade, Serbia**

*October 2017 – present*

### Matematička gimnazija

*Mathematical Grammar School (GPA 4.75/5.0)*

**Belgrade, Serbia**

*September 2013 – June 2017*

## PROJECTS

---

### ASL Gesture Recognition From Depth Images

2019

- Hand segmentation using DNN on depth images
- Gesture recognition using only DNN output

### Bouncing Ball With Air Resistance

2019

- Project for course *Introductory in Mechanics*

### Comparative Analysis of Priority Queues

2017

- *Graduation project*
- Comparison of different priority queues on graph algorithms

## COMPETITIONS

---

- National Competition in Informatics (winner 2017)
- Serbian Olympiad in Informatics (3<sup>rd</sup> prize 2016, 2017)
- ACM-ICPC SEERC (participant 2017, 2018)
- Microsoft Bubble Cup (finalist 2017)

## SKILLS & INTERESTS

---

- Machine Learning, Deep Learning, Computer Vision
- Algorithms, Data Structures
- Calculus, Linear Algebra, Probability, Statistics
- Python, C++, Java, Javascript, git
- Working in PyTorch and TensorFlow
