EXPERIENCE

Microsoft   **Belgrade, Serbia**
Software Engineering Intern (Cognition team)   *July 2019 – present*
- Confidential

Microsoft   **Belgrade, Serbia**
Software Engineering Intern (Cognition team)   *July 2018 – October 2018*
- Using deep learning to assist manual ground-truth labeling for eye tracking

EDUCATION

Faculty of Mathematics   **University of Belgrade, Serbia**
Bachelor in Computer Science (GPA 9.95/10.0)   *October 2017 – present*
Faculty of Computing   **Union University, Serbia**
Bachelor in Computer Science (GPA 9.93/10.0)   *October 2017 – present*
Matematička gimnazija   **Belgrade, Serbia**
Mathematical Grammar School (GPA 4.75/5.0)   *September 2013 – June 2017*

PROJECTS

ASL Gesture Recognition From Depth Images   *2019*
- Hand segmentation using DNN on depth images
- Gesture recognition using only DNN output

Bouncing Ball With Air Resistance   *2019*
- Project for course *Introductory in Mechanics*

Comparative Analysis of Priority Queues   *2017*
- *Graduation project*
- Comparison of different priority queues on graph algorithms

COMPETITIONS

- National Competition in Informatics (winner 2017)
- Serbian Olympiad in Informatics (3rd prize 2016, 2017)
- ACM-ICPC SEERC (participant 2017, 2018)
- Microsoft Bubble Cup (finalist 2017)

SKILLS & INTERESTS

- Machine Learning, Deep Learning, Computer Vision
- Algorithms, Data Structures
- Calculus, Linear Algebra, Probability
- Python, C++, Java, Javascript, `git`
- Working in PyTorch and TensorFlow
